

# Phase One: Reopening Public Accommodation Services

*Following these guidelines for reopening fitness rooms, self-service buffets, restaurants and common areas of hotels, motels and other public accommodations will help protect your staff and the public. **Public Accommodations may continue to provide rooms for guests. Food and beverages may be delivered by room service.***

## Limitations

- **Fitness rooms, pools & spas** must remain closed.
- **Self-service buffets**, including continental breakfast bars and coffee bars must be closed. Staff may fill a plate or cup from a buffet and serve it to a guest.
- **Avoid gathering** in groups of more than 10 people in circumstances that do not readily allow for appropriate physical distancing.
- **Close common areas** where physical distancing cannot be maintained.
- **Restaurant dine-in service** can resume on May 4th, **if** RiverStone Health, the Yellowstone County health agency, has approved your reopening plan.
- **Minimize contact time** with guests if possible.
- **Manage waiting lines** to maintain a 6-foot distance or more between guests.
- **Post signs** encouraging guests to maintain 6-foot physical distance between people who are not in their immediate family or group.
- **Routinely clean and disinfect** frequently touched surfaces.
- **Employees should** stay home if they are sick and should consult with a primary care provider if they have symptoms of COVID-19.
- **Train workers** on personal hygiene procedures, COVID-19 symptoms, physical distancing, and cleaning and sanitizing procedures.
- **Remove shared items**, such as magazines, from common areas.

## Recommended Best Practices

- **Provide a barrier** for protection between guests and front-desk workers.
