Canyon Creek Memory Care COVID-19 Update

Billings, MT – As of 3:00 p.m. today, an additional 19 people associated with Canyon Creek Memory Care have tested positive for COVID-19. The 19 include nine staff members and ten residents. These 19 individuals are among the 54 Yellowstone County residents that were reflected on the state of Montana COVID-19 case map today, July 10.

These newly reported positive individuals bring the total number of people associated with the Canyon Creek COVID-19 outbreak to 91– 36 employees and 55 residents.

Of those 19 people testing positive, seven previously had tested negative for COVID-19, seven people had tests that were either unsatisfactory or inconclusive and five people were newly tested.

Since Monday, July 6, five Canyon Creek residents have sadly passed away. There are currently four Canyon Creek residents in Yellowstone County hospitals.

RiverStone Health, as well as the Montana Department of Public Health and Human Services, continues to be in close contact with Canyon Creek Memory Care assisting in the ongoing management of the outbreak.
