

# COVID-19 ISOLATION & QUARANTINE GUIDELINES

## ISOLATION: What to do if you test positive for COVID-19

➡ Everyone, regardless of vaccination status

Stay home for 5 days (onset of symptoms or test date is Day 0)

After 5 days, if you have no symptoms, or your symptoms are resolving, you can leave your house wearing a well-fitting mask.

- If you have a fever, continue to stay home until the fever resolves without the use of medication.

For 5 additional days, continue to wear a well-fitting mask around all others, including around other people in your household (days 6-10).

## QUARANTINE: What to do if you are a close contact

### VACCINATION STATUS
